Save time and money by fabricating your own rebar.

DIAMOND[®]

BWS-25X

BWS-32X

This C-shaped WorkStation is the perfect height for increasing your rebar bending production.

It's designed to fit around the DIAMOND model DBD-25X or DBD-32X rebar bender on our stand. The DBD-25X or DBD-32X rebar bender can be easily removed for use in any portable applications. (Rebar benders, stands & foot switches sold separately)

- Sturdy design with a 12-gauge heavy-duty galvanized sheet metal worktop.
- Designed for stationary mounting of a DBD-25X or DBD-32X rebar bender.
- Bender can be mounted in a stationary position with the WorkStation or easily removed for use in any portable application (simply slides in and out).
- Modular design allows for other workstations to be bolted together.
- Shipped partially assembled complete with hardware and instructions.
