**Optional Circular Pattern Rollers for DBD-25X & DBD-25H Rebar Benders**

**Part #1BR5209**  
 with 120R to side shown

**Part #1BR5209**  
 with 100R to side shown

Create circular patterns with rebar, final size varies depending on technique and selection of the bending angle. With this roller you can bend circular patterns up to 36" diameter. Bending a circular pattern requires multiple bends to complete.

**Part #1BR5214**  
 with 100R to side shown

**Part #1BR5214**  
 with 80R to side shown

This roller is smaller than the #1BR5209; final size varies depending on technique and selection of the bending angle. With this roller you can bend circular patterns up to 24" diameter. Bending a circular pattern requires multiple bends to complete. See circular bending video on our website: [bnrebartools.com](http://bnrebartools.com), click on downloads.
