The Ultimate #6 Combination Rebar Cutter & Bender.

DIAMOND®

DBC-20X

The DC-20WH rebar cutter can be removed and used in a portable application or secured in the stationary position with U-Bolts and operated hands-free by the foot pedal switch.

Another quality product from Benner-Nawman and DIAMOND. This is the ultimate combination rebar cutter and bender. It combines the very popular DC-20WH rebar cutter and the DBD-20X rebar bender together on a heavy-duty powder-coated skidded housing. The rebar cutter and bender are simply plugged into the weather-protective electrical outlets, no hard wiring. A toggle switch allows you to go from bending to cutting and both are operated hands-free with a foot pedal. The GFI plug is a standard safety feature.

This combination unit is easy to maintain and is backed with a one-year parts and labor warranty. Benner-Nawman and DIAMOND have earned over two decades of proven quality and reliability. Unit is shipped fully assembled and includes a steel case with six bending rollers and a #1BDL401190 foot pedal control switch.
